MODULE SPECIFICATION

Part 1: Basic Data						
Module Title	Foundations for Practice					
Module Code	UZYSX5-15-1		Level	1	Version 2	
Owning Faculty	Health and Appl	Health and Applied Sciences Field Allied Health Professions				
Contributes towards	BSc (Hons) Occupational Therapy					
UWE Credit Rating	15	ECTS Credit Rating	7.5	Module Type	Standard	
Pre-requisites	None		Co- requisites	None		
Excluded Combinations	None		Module Entry requirements	None		
Valid From	July 2017 (v2)		Valid to	September 2021		

CAP Approval Date 31 May 2017 (v2)

Part 2: Learning and Teaching					
Learning Outcomes	 On successful completion of this module students will be able to: 1. Identify and articulate the components of the Occupational Therapy Process and their inter-relationship (Component A) 2. Articulate and reflect on personal safe keeping and professional conduct (Component A) 3. Engage in and reflect on basic professional reasoning processes (Component A) 4. Demonstrate safe moving and handling skills in relation to assistive technology (Component A) 5. Demonstrate ability to plan, run and evaluate groups appropriate for this level (Component A) 6. Demonstrate effective searching for evidence in support of practice (Component A) 				
Syllabus Outline	7. Demonstrate communication skills, to professional standard (Component A) The aim of this module is to equip the students with some basic skills and understanding of occupational therapy practice prior to their first professional placement. It brings together some of the learning students undertake in their two core level one modules and enhances and re-enforces the main practical skills needed to go out into practice in any field. The syllabus covers:				
	 Contexts for Practice: Introduction to practice areas in NHS, local authorities and the third sector. Awareness of roles of other professions in practice areas Professional Issues: Consolidation of students' understanding of client-centred practice, working with vulnerable people, disability & equality awareness. Introduction to professional record keeping and introduction to pertinent approaches. Evidence-based practice: Consolidation of students' understanding of 				

	 searching databases, literature and strategies for searching and introduction to reviewing literature to support practice Professional Reasoning: Practical consideration of problem-solving, professional reasoning, occupational therapy process, theoretical frameworks, conceptual models of practice, assessment and outcome measures Practical sessions including: Introduction to using assistive technology, environmental adaptation, using wheelchair, assessing posture and seating, running groups. 						
Contact Hours	approximately forms as descr	As this is a 15 credit module, it assumes 150 hours of study on the part of the student; approximately 36 hours of this will be in scheduled learning, which may take several forms as described below. Students are expected to spend 114 hours on independent learning tasks and preparation for assessments.					
Teaching and Learning Methods	(sizes varying	arning includes due to type o bjects, some uso	of activities a	nd risk asses			
	review of sess	earning include sion topics and ons and assignn	discussions,	group project			
	Technology Enhanced Learning: MyUWE and Blackboard, the university supported learning portal and virtual learning environment, will be used to support students' learning, conduct activities, organise and communicate learning materials. Students will be able to engage with the material, other students and members of staff through these systems and make use of the various functionalities built into them (e.g. blogs, journals, audio, video, discussion boards, wikis, etc.) as appropriate and useful for the module learning.						
Key Information Sets Information	Key Information Sets (KIS) are produced at programme level for all programmes that this module contributes to, which is a requirement set by HESA/HEFCE. KIS are comparable sets of standardised information about undergraduate courses allowing prospective students to compare and contrast between programmes they are interested in applying for.

Part 3: Assessment				
Assessment Strategy	This module has one component of assessment – Component A, which assesses learning outcomes 1-7. This is a Structured Oral and Practical Examination (SOPE), with a 15 minute maximum time to complete it. This module has a practical focus and prepares student for their first placement, it is therefore appropriate to assess the skills required by simulated scenarios and a hands-on approach; this strategy is actively supported by service colleagues. Students have to undertake a range of practical tasks to demonstrate their competence and also problem solving, they also have to provide a verbal justified reflection on further practical sessions undertaken as part of the module.			

Identify final assessment component and element Component		ent A	
% weighting between components A and B (Star	ndard modules only)	A: 100	B: 0
First Sit			
Component A (controlled conditions) Description of each element	Element v	veighting	
1. Structured Oral and Practical Examination (SOPE) – 15 minutes maximum			00

Resit (further attendance at taught classes is not required)				
Component A (controlled conditions) Element weighting Description of each element Element weighting				
1. Structured Oral and Practical Examination (SOPE) – 15 minutes maximum	100			

If a student is permitted an **EXCEPTIONAL RETAKE** of the module the assessment will be that indicated by the Module Description at the time that retake commences.
