Part 2: Description
<p>This module will enable students to produce a final piece of work that will serve to showcase their skills, knowledge and production competencies at the highest level. This is an opportunity for the student to develop a long form project and specialise in a platform of their choice.</p>
Part 3: Assessment: Strategy and Details
<p>For the project proposal, students will be assessed on its overall coherence, and suitability for their chosen medium in addition to evidence of in-depth research and understanding of audiences. Students will be asked to produce a portfolio of work. They will be assessed on their mastery of the technology where appropriate, evidence of editorial judgement, understanding of the genre/project brief requirements and time management skills. Workshops and tutorials will provide students with opportunities for further (non-assessed) formative assessment. If a student works on a live industry brief, the commissioning company will be asked to comment on their work through using a standard feedback pro-forma. Students will be encouraged to work in cross-disciplinary production teams across all Departmental areas.</p> <p>The Assessment:</p> <ul style="list-style-type: none"> <li>• Element A1, Project Proposal - a proposal that outlines the project idea</li> <li>• Element A2, Project Portfolio - the final project</li> </ul>
