Part 2: Description
<p>This is the fourth professional practice module of the programme. The module will consolidate learning from Episodes of Care 3, assisting students to become more critical about the requirements for implementing safe, effective and person-centred nursing care for people who have a range of physical, social or emotional needs. Students will examine and identify through active participation how to care is delivered in a range of settings, in complex circumstances, critically evaluating health care delivery in their chosen field of registration. This module will further support students to understand the contribution multidisciplinary and inter agency teams have in their chosen field, as students take an active role in cross-discipline liaison.</p> <p>The indicative content of the module will focus on the required professional standards as stated within the Nursing and Midwifery Council's (NMC) Future Nursing Standards (2018) and will be met through clinical experience. Students will be supported by an academic assessor.</p> <p>This module will use a range of learning and teaching strategies to support student learning and will include:</p> <ul style="list-style-type: none"> <li>• Interactive realities</li> <li>• Inter - professional simulations and clinical assessment nursing procedural skills sessions</li> <li>• Guided learning</li> <li>• Self-directed learning</li> <li>• Digital learning and digital capabilities</li> <li>• Peer coaching</li> </ul> <p>Students will be assessed against the NMC Standards of proficiency for registered nurses (2018). The proficiencies are grouped under seven platforms,</p>

- Being an accountable professional
- Promoting health and preventing ill health
- Assessing needs and planning care
- Providing and evaluating care
- Leading and managing nursing care and working in teams
- Improving safety and quality of care
- Coordinating care

And two annexes.

- Communication and relationship management skills
- Nursing procedures

### Part 3: Assessment: Strategy and Details

Students are required to complete a period of professional practice within a care setting related to their field of practice. These placements will support student learning to build confidence, ability to think critically, apply knowledge and skills, and provide nursing care across all four fields of nursing practice (adult, child and young people, learning disabilities, mental health), that is informed by a national and international evidence base.

Each student will also have a formative assessment of their progress at the midpoint of their placement with the final summative assessment taking place at the end of the module. Students will be able to formatively engage with digital learning resources and packages to support their learning and professional development and are encouraged to reflect on practice and learning through a portfolio.

The summative assessment will be:

#### Component A:

Completion of skills and proficiencies in the Practice Assessment Document (PAD) and the Ongoing Achievement Record (OAR)
