Field: Business and Management Cross-Disciplinary

Module type: Module

Pre-requisites: None

Excluded combinations: None

Co-requisites: None

Continuing professional development: No

Professional, statutory or regulatory body requirements: None

Part 2: Description

Overview: This module focuses on practice-led “learning by doing” and enables you to evidence your ability to extend and develop your enterprising and entrepreneurial competencies. You will continue to maintain and develop your Portfolio of Practice, which captures and evidences your increasing engagement in practical activities involving the identification, creation, evaluation and exploitation of ideas and opportunities.

You continue to be supported by a Competency Framework which enables you to identify the enterprising and entrepreneurial competencies which you will be required to develop through your practice in your second year on this programme. The Competency Framework will also enable you to build your Portfolio of Practice so that you can show how your engagement in practice has enable you to accelerate the development of relevant learning and competence. The Competency Framework links to and builds on UWE's Enterprise Skills Competency Framework as well as the EntreComp Entrepreneurship Competence Framework.

In this module you will demonstrate evidence of the acquisition of competencies through engagement within a range of projects and ventures, including some that are organised by the Programme, some that are organised by your Team Company, and some that you initiate yourself with your peers.

This is the second module in the "Learning by Doing" strand of the programme. You will extend your range of threshold level competencies as well as developing higher levels of competence in selected enterprising and entrepreneurial competencies as you start to develop areas of specialism and expertise.

Module content will be contextualised in line with the differing deliveries of the programme within which this module is provided.

Features: Not applicable

Educational aims: See above.

Outline syllabus: See above.
