**Part 2: Description**

The module will be delivered by weekly two hour lectures and fortnightly two hour workshops. The related materials for the module will be made available via Blackboard. Students are expected to make full use of their independent learning time and reflect critically upon the subject, and develop their own ideas. Students will be directed towards the University Library online Study Skills resources for the development of skills appropriate to the level and style of the module.

The module team will adopt an innovative and student centred approach that seeks to encourage students to critically engage with the subject matter of the module. This will be based on interactive lectures and interactive discussions between the students and module team during workshops.

1. This module will introduce students to some of the main areas of commercial law. In this module students will examine the Law relating to:

Part 1 – Agency: the relationship between a principal, agent and third party and the rights, obligations and liabilities that exists between them. The contractual and fiduciary duties that exist between the principal and the agent as well as the different types of authority.

Part 2 – Partnerships: the general nature and types of partnerships, establishment, controls, capacity and the duty of good faith. Also the relationship between partners and outsiders; partners and each other and partnership property; insolvency as well as partnership taxation issues.

Part 3 - Sale of Goods and Contracts for Services: business to business contracts under the Sale of Goods Act

1979 and business to consumer contracts under the Consumer Rights Act 2015. Implied terms, the rules related to property and risk, delivery and acceptance and remedies. Unfair contract terms and exclusion clauses and how they are viewed both in business to business and business to consumer sales. Also contracts for services both under the Supply of Goods and Services Act 1982 in business to business contracts and Consumer Rights Act 2015 in business to consumer contracts.

Part 4 - International Sale of Goods: the United Nations Convention on Contracts for the International Sale of Goods, including the buyer's and seller's respective obligations as well as remedies available for a breach of contract.

2. Students will be advising fictional clients based on practical extended scenarios. They need to identify, analyse and creatively respond to relevant opportunities by identifying multiple ideas and solutions to the established problems on the basis of their increasing subject expertise including application of Common Law and statutory rules. They will develop their appreciation of, and ability to demonstrate, flexibility and adaptability through identifying alternative perspectives and offering a choice of solutions suitable to the client's expectation and situation, thereby accommodating the continuous change, ambiguity, uncertainty and risk that comes with advising another person.

3. Students will be encouraged to develop an entrepreneurial mindset by becoming aware of themselves as creative or resourceful; as able to translate ideas into actions; or as prepared to challenge assumptions and to approach risk and uncertainty through investigation and research. Based on this, students will also be encouraged to start partaking in relevant pro bono activities or other co-curricular enterprise or entrepreneurial student activities across the faculty and university.

### Part 3: Assessment

This module will be assessed via the following two components:

Component A is an exam of two hours in length that is weighted at 50% of the overall module mark.

The examination will assess; knowledge and understanding of Commercial Law, the ability to evaluate problems and identify solutions, apply their knowledge to factual situations, competence in dealing with case law and communication skills under time pressure.

Component B is an online multiple choice test of 20 questions (Element 1 worth 25% of the overall module mark) and a written coursework (Element 2 worth 25% of the overall module mark).

CW1 will test the student's legal analytical skills and enable the student to demonstrate the learning outcomes covered in semester one.

CW2 is a 2000-word written coursework based on a choice of topics from semester two

This will test the student's written communication and legal reasoning skills and enable the student to achieve the learning outcomes covered in semester two, namely their entrepreneurial mindset, for example their resourcefulness in translating ideas into actions through appropriate investigation and research.

The module team will provide formative feedback in workshops as well as in one to one meetings. The online test will also serve as an opportunity for formative assessment by prompting early feedback to students on the progress of their studies so far.
