Section 1: Key Programme Details

Part A: Programme Information

Programme title: Nursing (Adult)[Sep][FT][Glenside][3yrs]

Highest award: BSc (Hons) Nursing (Adult)

Default award: BSc (Hons) Health and Social Studies

Interim award: BSc Health and Social Studies

Interim award: DipHE Health and Social Studies

Interim award: CertHE Health and Social Studies

Awarding institution: UWE Bristol

Affiliated institutions: Not applicable

Teaching institutions: UWE Bristol

Study abroad: No

Year abroad: No

Sandwich year: No

Credit recognition: No

Department responsible for the programme: HAS Dept of Nursing & Midwifery,
Faculty of Health & Applied Sciences

Contributing departments: Not applicable

Professional, statutory or regulatory bodies:

Nursing and Midwifery Council (NMC)

Apprenticeship: Not applicable

Mode of delivery: Full-time

Entry requirements: For the current entry requirements see the UWE public website

For implementation from: 01 September 2021

Programme code: B74J13-SEP-FT-GL-B70W

Section 2: Programme Overview, Aims and Learning Outcomes

Part A: Programme Overview, Aims and Learning Outcomes

Overview: Nursing is the science and art of promoting and protecting health and well-being, preventing ill-health, and prolonging life through the organised efforts of society. Nursing knowledge, skills and understanding are essential in tackling some of the major challenges of the 21st century healthcare delivery including the rising tide of avoidable disease and the persistence of health inequalities nationally and globally. The roles that nursing professionals undertake vary greatly, but all aim to improve health, prevent ill-health, and make a positive difference to peoples' lives.

The philosophy of UWE's nursing education encompasses a flexible, progressive and innovative approach to ensure our graduates are caring, competent and critical thinkers. This will be realised by working in partnership with our local National Health Service, Private and voluntary sector partners expanding and developing national and international links; representing the breadth of opportunities available in healthcare. UWE provides innovative practice learning opportunities through our strategic planning of placement episodes of care, linking theory to practice and anticipating future trends in care delivery.

UWE's philosophy of teaching and learning recognises the value of theoretical and practical experience equally; through the promotion of positive learning communities. The identity of the UWE Future Nurse is crucial in the teaching and learning activities ensuring that all individuals enrolled onto a nursing programme will be empowered and proactive; challenging assumptions and transforming practice. The UWE nurse seeks opportunities to enhance their learning and identifies continuous development of practice. The UWE graduate nurse will be situationally responsive, digitally literate, driving the profession forward through connectivity and dynamism that has been underpinned by research informed learning and teaching.

Educational Aims: Broad aims:

Provide exploratory learning opportunities fostering solution focussed practitioners

Create competency in evidence based enquiry and self-directed learning

Develop a flexible and adaptable nursing workforce

Meet the Future Nurse standards as set out by the Nursing and Midwifery Council (NMC)

Facilitate access to postgraduate study and beyond

Preparing undergraduate nurses for future employability

Programme Learning Outcomes:

On successful completion of this programme graduates will achieve the following learning outcomes.

Knowledge and Understanding

- A1. Understand the need to base all decisions regarding care and interventions on people's needs and preferences, recognising and addressing any personal and external factors that may unduly influence their decisions and in accordance with the NMC Code (2018)
- A2. Work in partnership with people, families and carers to evaluate whether care is effective and the goals of care have been met in line with their wishes, preferences and desired outcomes
- A3. Communication skills for assessing, planning, providing and managing best practice, evidence-based nursing care
- A4. Support and enable people at all stages of life and in all care settings to make informed choices about how to manage health challenges in order to maximise their quality of life and improve health outcomes

Intellectual Skills

- B1. Work in partnership with people to develop person-centred care plans that take into account their circumstances, characteristics and preferences
- B2. Commitment to continuing professional development and lifelong learning through the development of skills in relation to self-directed and independent study
- B3. Make a key contribution to the continuous monitoring and quality improvement of care and treatment in order to enhance health outcomes and people's experience of nursing and related care
- B4. Contribute to processes of organisational change through an awareness of local and national policies

Subject/Professional Practice Skills

- C1. Act in the best interests of people, putting them first and providing nursing care that is person-centred, safe and compassionate
- C2. Act professionally at all times and use their knowledge and experience to make evidence-based decisions about care
- C3. Play a key role in improving and maintaining the mental, physical and behavioural health and well-being of people, families, communities and populations
- C4. Active involvement in the prevention of and protection against disease and ill health and engage in public health, community development and global health agendas, and in the reduction of health inequalities
- C5. Take the lead in providing evidence-based, compassionate and safe nursing interventions. They ensure that care they provide and delegate is person-centred and of a consistently high standard
- C6. Ensure that care they provide and delegate is person-centred and of a consistently high standard
- C7. Responsible for managing nursing care and are accountable for the appropriate delegation and supervision of care provided by others in the team including lay carers
- C8. Play an active and equal role in the interdisciplinary team, collaborating and communicating effectively with a range of colleagues
- C9. Assess risks to safety or experience and take appropriate action to manage those, putting the best interests, needs and preferences of people first

Transferable Skills and other attributes

- D1. Communicate effectively, are role models for others, and are accountable for their actions
- D2. Continually reflect on their practice and keep abreast of new and emerging developments in nursing, health and care
- D3. Prioritise the needs of people when assessing and reviewing their mental, physical, cognitive, behavioural, social and spiritual needs
- D4. Use information obtained during assessments to identify the priorities and requirements for person-centred and evidence-based nursing interventions and support
- D5. Provide leadership by acting as a role model for best practice in the delivery of nursing care

Part B: Programme Structure**Year 1**

The student must take 120 credits from the modules in Year 1.

Year 1 Compulsory Modules

The student must take 120 credits from the modules in Compulsory Modules.

Module Code	Module Title	Credit
UZUK8A-30-1	Episodes of Care 1 2019-20	30
UZZK8B-30-1	Episodes of Care 2 2019-20	30
UZWK88-30-1	Nursing 1 - Preparation for Professional Practice and Learning 2019-20	30
UZTK89-30-1	Nursing 2 - Physiology and Pharmacology and Public Health 2019-20	30

Year 2

The student must take 120 credits from the modules in Year 2.

Year 2 Compulsory Modules

The student must take 120 credits from the modules in Compulsory Modules.

Module Code	Module Title	Credit
UZWK8H-15-2	Episodes of Care 3 2020-21	15
UZTK8J-15-2	Episodes of Care 4 2020-21	15
UZTK8N-30-2	Nursing 3 - Complexities of Health in Adult Nursing 2020-21	30
UZZK8S-30-2	Nursing 4 - Assessment and Clinical Reasoning 2020-21	30
UZUK8T-30-2	Nursing 5 - Evidence-Based Pharmacology and Practice 2020-21	30

Year 3

The student must take 120 credits from the modules in Year 3.

Year 3 Compulsory Modules

The student must take 105 credits from the modules in Compulsory Modules.

Module Code	Module Title	Credit
UZUK8K-15-3	Episodes of Care 5 2021-22	15
UZTK8L-30-3	Episodes of Care 6 2021-22	30
UZTK8U-15-3	Nursing 6 Health Care Research Methods 2021-22	15
UZWK8V-15-3	Nursing 7 Leadership and Supervision 2021-22	15
UZUK8W-30-3	Nursing 8 Final Project 2021-22	30

Year 3 Optional Modules

The student must take 15 credits from the modules in Optional Modules.

Module Code	Module Title	Credit
UZTSUD-15-3	Cancer Care 2021-22	15

Part C: Higher Education Achievement Record (HEAR) Synopsis

Nursing at UWE prepares graduates for the inevitable changes in the profession which will occur during their career, enabling them to undertake and enjoy lifelong learning and continuing professional development. So that as a Future Nurse and leaders they will have the professional values and core skills of compassion, competency, a caring attitude and commitment to nursing and who will have the courage to transform, challenge and promote best practice. All of the NMC (2018) standards for pre-registration nursing education must be achieved to complete the BSc (Hons) Nursing.

Part D: External Reference Points and Benchmarks

The design of the BSc (Hons) Nursing (Adult/ Children and Young People/ Learning Disabilities and Mental Health) has been developed with reference to a number of key guidelines, policies and strategies. External influences have been considered e.g. professional body requirements including NMC standards (2018), Subject benchmarks and Department of Health policies listed below.

Strategy 2020:

The UWE Bristol Strategy for 2020 (UWE, 2013) sets out a confident and ambitious future and focuses on an ultimate goal - transforming futures - through research, learning and teaching and knowledge exchange. UWE Bristol's ambition is known nationally and internationally as the best university for:

Professionally recognised and practice-oriented programmes, which contribute to an outstanding learning experience and generate excellent graduate employment opportunities and outcomes for all learners

Connecting and working with our local and regional economy, businesses and communities and international partners to advance knowledge, and to advance the health, sustainability and prosperity of our locality and region

Being digitally advanced, agile and responsive in the way we work, embracing and leading change to create new sustainable opportunities

Being inclusive and global in outlook and approach

The UWE Bristol Strategy 2020 (UWE, 2013) priorities are located in four domains which are Outstanding learning; Ready and able graduates; Research with impact and Strategic partnerships, connections and networks.

University Policies:

The programme aligns to UWE's strategic ambition through ensuring that students experience outstanding learning and teaching. BSc (Hons) Nursing graduates will be ready and able to make a positive contribution to society through their particular field of practice. <http://www1.uwe.ac.uk/about/corporateinformation/policies.aspx>.

Part E: Regulations

Approved to University Regulations and Procedures

The maximum registration period for this programme is six years to safeguard continuing currency of knowledge and its application in a professional context. Any progression beyond six years must be approved through a UWE examination board. In order to be eligible for registration at the end of the course, students must have demonstrated that they have met the professional requirements as stipulated by the

NMC, including a declaration of good health and good character (all fields); 4600 hours of theory and practice with a minimum of 2300 hours in each (all fields), numeracy (all fields) and EU requirements (Adult Field).

Upon completion of the programme, students who take longer than 6 months to register will be required to submit more information and those who take longer than 5 years to register will need to contact the NMC to do so.

External examiner(s) are appointed in line with the NMC (2018) requirement to 'ensure appropriately qualified and experienced external examiners consider and report on the quality of theory and practice learning'.

UWE Regulation variant (approved July 2019):

UWE regulations pertaining to recognition of prior learning limits and re-using credit do not apply to a NMC registered nurse seeking to gain an award leading to registration in another field of nursing.
