

PROGRAMME SPECIFICATION

Part 1: Information	
Awarding Institution	University of the West of England, Bristol
Teaching Institution	University of the West of England, Bristol SHAPE, Hong Kong
Delivery Location	University of the West of England, Bristol SHAPE, Hong Kong
Study abroad / Exchange / Credit recognition	Erasmus ITU Copenhagen
Faculty responsible for programme	Faculty of Environment and Technology
Department responsible for programme	Department of Computer Science and Creative Technologies
Professional Statutory or Regulatory Body Links	N/A
Highest Award Title	BSc (Hons) Digital Media
Default Award Title	N/A
Interim Award Titles	BSc Digital Media Dip HE Digital Media Cert HE Digital Media UWE Progression Route
UWE Progression Route	Foundation
Mode of Delivery	SW / FT / PT / BL
ISIS code/s	ISIS2: G451 (G451 SW) (G45113 FT) (G45A13 SHAPE)
For implementation from	September 2020

Part 2: Description

The BSc (Hons) Digital Media has the following **general aims**:

- To enable students to embark upon professional careers by developing problem-solving and other transferable skills.
- To enable students to work effectively and productively as a member of a team.
- To develop study skills that will enable students to become independent, lifelong learners.
- To prepare students for progressing to study for higher degrees in computing and digital media.
- To encourage the discerning use of reference material from a variety of sources.

The BSc (Hons) Digital Media has the following **specific aims**:

- To provide skills in the design and implementation of digital media and computer games, including an understanding of the mathematical and technological principles required, as well as an exploration of the creative potential presented within the development of media for web platforms, and the cultural and technological contexts out of which they arise.
- To provide practical skills in web development, interaction design, and deployment of rich interactive media.
- To develop the students' ability to make efficient, innovative and robust contributions to companies engaged in the development of products for web platforms and related interactive digital media.
- To develop the students' understanding of the importance and mechanisms of project management, and associated tools, within computing, with particular reference to the development of interactive digital media and the web.

Description of any Distinctive Features

Many modules involve significant practical work. The programme introduces level one studio modules in designated studio spaces encouraging cohort ownership and identity and engagement. Therefore a substantial proportion of the student's contact time for those and other modules is spent in the creative technologies studios.

Student Learning and Student Support

Teaching and learning strategies to enable learning outcomes to be achieved and demonstrated At UWE, Bristol there is a policy for a minimum average requirement of 12 hours/week contact time over the course of the full undergraduate programme. This contact time encompasses a range of face to face activities as described below. In addition a range of other learning activities will be embedded within the programme which, together with the contact time, will enable learning outcomes to be achieved and demonstrated.

On the Digital Media programme teaching is a mix of scheduled, independent and placement learning. Central to the Faculty's developing Teaching and Learning Strategy is the intention to:

- create a community of learners, where staff and students work, learn and interact together to forward their own and each other's learning
- promote deep approaches to learning and lifelong learning
- create learning experiences that produce graduates with the ability to think critically and analytically and to take responsibility for the management of their own learning.
- provide support for a diverse body of learners

These principles inform the curriculum design and underpin the wide range of teaching, learning and assessment approaches that have been adopted. The strategy emphasises the value of variety in stimulating students and responding to their different preferred learning styles. Teaching teams are expected to be reflective about how chosen methods contribute to meeting the aims of the strategy.

The mode of delivery of a module is determined by its Module Leader, and typically involves a combination of one or more of the following: lectures, tutorials, 'lectorials', laboratory classes, group activities and individual and group project work.

Scheduled learning includes lectures, seminars, tutorials, project supervision, demonstration, practical classes and workshops, external visits and work based learning. Scheduled sessions may vary slightly depending on the module choices made.

Part 2: Description
<p>Independent learning includes hours engaged with essential reading, case study preparation, assignment preparation and completion etc. Scheduled sessions may vary slightly depending on the module choices made.</p> <p>Class Activities The mode of delivery of a module is determined by its Module Leader, and typically involves a combination of one or more of the following: lectures, tutorials, 'lectorials', laboratory classes, group activities and individual and group project work.</p> <p>Academic Support Academic staff are expected to be available outside normal timetabled hours, either by appointment or during published "surgery" hours, in order to offer advice and guidance on matters relating to the material being taught and on its assessment.</p> <p>Pastoral Care Pastoral care is divided between academic personal tutors who look after the academic well-being of students and student advisors who provide comprehensive, full-time student support on a range of issues including funding, academic regulations, personal and health issues.</p> <p>Progression to Independent Study Many modules require students to carry out independent study, such as research for projects and assignments; a full range of facilities are available at all sites to help students with these. Guided support takes the form of timetabled lectures, tutorials, seminars and practical laboratory sessions. Students are expected to attend all sessions on their timetable; this is especially important because of the high content of practical work in the programme.</p>
Programme requirements for the purposes of the Higher Education Achievement Record (HEAR)
Graduates will be able to demonstrate practical skills and theoretical knowledge across a range of digital media areas such as: graphic design & visual communication; creative coding & prototyping; web, app & social media; 3D modeling, animation & AR; audiovisual production; user experience & interaction design. They will have learned project management, teamwork, creative problem-solving, presentation and other transferable skills. They will have been taught mathematical and technological principles required, as well as an exploration of the creative potential presented within the development of digital media, and the cultural and technological contexts out of which they arise.
Regulations
Approved to University Regulations and Procedures

Part 3: Learning Outcomes of the Programme																															
Learning Outcomes:	UFCF8L-30-1 ICC	UFCFY5-30-1 MS	UFCFHL-30-1 GWDS	UFCFBL-30-1 DC	UFCFC4-30-1 AE	UFCFH5-30-2 UX	UFCFKL-30-2 MedP	UFCFB4-30-2 IS	UFCFLL-30-2 CPC	UFCFC6-30-2 PG	UFCFG4-30-2 AR	UFCFA4-30-2 AAS	UFCFRL-30-2 R&P	UFCFQL-30-2 SD and PP	UFCFS4-30-3 CTP	UFCFHQ-45-3 CCTP	UFCFQ5-30-3 ID	UFCFKQ-30-3 DES	UFCFM4-30-3 CGD	UFCFEC-30-3 3D	UFCFD6-30-3 AVP	UFCFMR-15-3 AVS	UFCF7H-15-3 MOB	UFCFR5-15-3 ADV2	UFCFSN-15-3 AI for CT	UFCFE6-15-3 PROFEX	UFCFWJ-15-3 IEX	UFCFVJ-15-3 PROFD	UFCFV5-15-3 LIVES	UFCFV3-15-3 ADVPERF	
	A) Knowledge and understanding of:																														
Historical and cultural perspectives of digital media and the web	X			X		X	X			X					X	X	X							X							
Key visual and information design principles		X	X	X		X	X		X					X	X	X	X	X		X	X	X	X								
Interaction design concepts, markup and programming languages, presentation technologies, formats and deployment technologies as applicable in modern digital media development	X	X	X			X	X		X	X	X	X	X	X	X	X	X	X	X				X	X							
The design development process, the use of personas, information architecture, functional analysis and testing in user-centered design			X			X	X		X	X		X	X		X	X	X	X	X		X	X	X								
Hardware architecture and supporting software technologies, and the network environment required for the production and deployment of contemporary digital media products	X	X	X		X	X	X	X	X		X	X		X	X	X			X	X	X	X	X	X	X	X		X		X	
<i>ESD: Professional, ethical and Sustainability issues affecting the development and deployment of digital media within an international market place</i>				X		X				X			X			X	X	X	X		X	X		X		X	X	X	X	X	X

Part 3: Learning Outcomes of the Programme

(B) Intellectual Skills																												
Apply appropriate design and problem-solving techniques to digital media requirements or issues	x	x			x	x		x		x	x		x	x	x	x	x	x	x	x	x	x	x	x	x	x		
Critically compare and evaluate digital media products and their designs	x	x	x	x		x		x	x		x	x	x	x	x	x	x		x	x				x	x	x	x	
Research and conduct an in-depth investigation relating to the requirements and/or relevant background information for the development of a digital media product			x	x		x		x	x			x		x	x	x	x	x						x				
Undertake a substantial study involving the design and/or development of a digital media product using appropriate tools and methodologies												x		x	x													
(C) Subject/Professional/Practical Skills																												
Create low and high fidelity designs and appropriate technical solutions corresponding to stated requirements.		x					x					x	x	x	x	x	x		x	x	x	x	x					
Interpret digital media designs to form technical requirements and design code/software that meets them.	x					x		x	x		x	x		x	x	x	x	x	x	x	x		x				x	
Write programming code in an appropriate language that fulfills a given design	x	x	x					x	x			x				x	x						x	x	x			
Utilize standard tools and professional design practices throughout the development process, to design, deploy, debug, test, and critically evaluate finished projects		x	x		x		x	x	x	x	x	x		x	x	x	x	x	x	x	x	x	x				x	x
Apply a range of techniques from key areas to digital media development		x	x		x	x		x		x	x	x		x	x	x	x	x	x	x	x	x	x	x	x	x	x	

Part 3: Learning Outcomes of the Programme

D) Transferable skills and other attributes																														
Demonstrate personal and time management skills appropriate to professional conduct in the field of digital media.	x	x	x	x	x	x	x		x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	
Report and communicate ideas and results effectively using media and style appropriate to an intended audience.	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x				x	x	
Work effectively as part of a group		x	x		x	x	x	x	x	x						x	x	x	x	x	x	x					x	x	x	x
Manage a project effectively, from inception to completion						x	x					x			x	x	x	x	x	x									x	x
Learn independently, reflect on their learning needs and achievements	x			x		x			x			x	x	x	x	x	x				x	x	x			x	x	x	x	x
Reflect on the process of development of a digital media product	x		x	x		x			x	x		x	x	x	x	x			x	x	x					x	x			x

Please note: to indicate standard delivery, core and core option modules have been shaded in darker colour than option only modules.

Part 4A: Programme Structure (UWE)**Full time**

The structure table below demonstrates the student journey from Entry through to Graduation for a **full time student**, including:

- level and credit requirements
- interim award requirements
- module diet, including compulsory and optional modules

Students who wish to build expertise in a specialist area are recommended to take the modules indicated in the table below (subject to viability) for which:

Std: Standard Delivery

CT: Creative Technologies

MP: Media Production

GD: Games Development

AT: Audio Technology

C indicates compulsory modules; **O** indicates optional modules. The programme for each full-time year of study must comprise 120 credits. Selection of modules is subject to the student having qualifications that demonstrate the pre-requisite knowledge specified in the module specifications:

ENTRY	YEAR 1	120 credits	CRE D	Std	CT	MP	GD	AT
	UFCFY5-30-1	Media Studio	30	C	C	C	C	C
	UFCFHL-30-1	Graphic & Web Design Studio	30	C	C	C	C	C
	UFCFBL-30-1	Design Contexts	30	O	C	C	C	O
	UFCF8L-30-1	Introduction to Creative Coding	30	O	C	C	C	O
	UFCFC4-30-1	Audio Engineering	30	O				C
Cert HE in Digital Media 120 credits, of which not less than 100 are at level 1 or above								
	YEAR 2	120 credits	CRE D	Std	CT	MP	GD	AT
	UFCFH5-30-2	User Experience	30	C	C	C	C	C
	UFCFKL-30-2	Media Production	30	O	C	C	C	O
	UFCFLL-30-2	Creative and Physical Computing	30	O	C	O	C	O
	UFCFC6-30-2	Play and Games	30	O	O	O	C	O
	UFCFRL-30-2	Research and Practice in Creative Technology	30	O	O	O		O
	UFCFQL-30-2	Sound Design and Post-Production	30	O	O	O		O
	UFCFB4-30-2	Intelligent Systems	30	O	O	O		O
	UFCFG4-30-2	Audio Recording	30	O				C
	UFCFA4-30-2	Applied Audio Systems	30	O				C
Dip HE in Digital Media 240 credits, of which not less than 100 are at level 2 or above and a further 120 are at level 1 or above								
Year Out: Students on the Sandwich route complete a placement year. For students on placement, there is an opportunity to complete a professional experience or international experience module and be awarded 15 level 3 credits. The professional experience and international experience modules are shown in the option list but are actually completed during the year out. UFCFKQ-30-3 Design Enterprise Studio is compulsory unless a placement was completed.								

YEAR 3	120 credits	CRE D	Std	CT	MP	GD	AT
UFCFS4-30-3	Creative Technologies Project	30	O		C	C	C
UFCFHQ-45-3	Comprehensive Creative Technologies Project	45	O	C			
UFCFQ5-30-3	Interaction Design	30	C	C	C	C	C

UFCFVJ-15-3	Professional Development	15	O	O			
UFCFSN-15-3	Artificial Intelligence for Creative Technologies	15	O	O			
<p>BSc Digital Media 300 credits with at least 60 credits at level 3, plus a further 100 credits at level 2 or above and a further 120 credits at level 1 or above</p> <p>BSc (Hons) Digital Media 360 credits with at least 100 credits at level 3, plus a further 100 credits at level 2 or above and a further 140 credits at level 1 or above</p>							

GRADUATION**Part time**

Students on the standard delivery may take modules in any order as the order of teaching of modules at the same level is not significant. In general, the Project or Dissertation would be undertaken in the final year. The structure table below demonstrates the student journey from Entry through to Graduation for a **part time student**.

ENTRY	YEAR 1	60 credits	CRE D	Std	CT	MP	GD	AT
	UFCFY5-30-1	Media Studio	30	C	C	C	C	C
	UFCFHL-30-1	Graphic & Web Design Studio	30	C	C	C	C	C
YEAR 2	60 credits	CRE D	Std	CT	MP	GD	AT	
	UFCFC4-30-1	Audio Engineering	30	O				C
	UFCFBL-30-1	Design Contexts	30	O	C	C	C	O
	UFCF8L-30-1	Introduction to Creative Coding	30	O	C	C	C	O
<p>Cert HE in Digital Media 120 credits, of which not less than 100 are at level 1 or above</p>								

YEAR 3	60 credits	CRE D	Std	CT	MP	GD	AT

<p>BSc (Hons) Digital Media 360 credits with at least 100 credits at level 3, plus a further 100 credits at level 2 or above and a further 140 credits at level 1 or above</p>							

GRADUATION

Part 5: Entry Requirements

Year 1: University Standard Entry Requirements

Year 2: in addition to the University's Standard Entry requirements, students should hold a qualification for which a minimum of 120 credits of Accredited Learning at Level 1 can be granted

Year 3: in addition to the University's Standard Entry requirements, students should hold a qualification for which a minimum of 240 credits of Accredited Learning at Level 1 or 2 may be granted, of which at least 120 credits must be at Level 2.

Students entering with advanced standing must satisfy all the pre-requisite requirements for their intended programme of study.

Tariff points as appropriate for the year of entry - up to date requirements are available through the [courses database](#).

Part 6: Reference Points and Benchmarks

Set out which reference points and benchmarks have been used in the design of the programme:

QAA subject benchmark statements

The Digital Media programme falls within the cognate area of the QAA Computing benchmark. The Computing Benchmark Statement contains (section 5) statements of the standards expected of graduates at both modal and threshold levels. Graduates of this programme will be able to meet the required standards to meet the benchmark.

University strategies and policies

The development of this programme reflects well institutional policies and is fully consistent with the University's commitment to 'make a positive difference to our students, business and society'.
