SECTION 2: PROGRAMME OVERVIEW, AIMS and LEARNING OUTCOMES**PART A: PROGRAMME OVERVIEW, AIMS and LEARNING OUTCOMES****1. (Programme) Overview (c. 400 words)**

The programme will be undertaken by students intending to pursue a career in law and in particular, to qualify as a barrister and be called to the Bar.

The Programme aims to equip graduates with the legal knowledge and skills to succeed with a career in legal practice, by undertaking a programme which has a professional focus (with professional body validation of the modules leading to Interim Awards). The Programme provides progression for a student from their academic legal studies to their vocational stage of training, it provides students with a foundation for legal practice, equipping them with the legal knowledge, skills and commercial understanding to succeed in a career as a barrister; while also preparing them for work-based learning

The Programme offers practice orientated learning with a Teaching & Learning Strategy which focuses on student centered learning. Students prepare for legal practice, both through undertaking the programme, but also by engaging in a range of extracurricular activities. The programme benefits from strong links with the local Bar and Western Circuit

The compulsory modules are delivered in a combined programme, that seeks to develop acquisition of knowledge in the subjects of Civil Litigation and Criminal Litigation both through specific knowledge modules which lead to centralised assessments, but also through the application of that knowledge in the skills modules

In addition to the compulsory modules required by the professional body, students may undertake additional optional modules to further progress them for practice. These further develop student's knowledge and their ability to be reflective practitioners, to both support their progression towards license to practice as a Barrister, and also to develop the necessary skills to be effective reflective practitioners (required both to succeed in practice and also to comply with the Professional Body Regulator's Continuing Professional Development requirements).

Further, students are provided with maximum flexibility in relation to the 60-credit dissertation and may choose instead of a one 60 credit dissertation a combination of 15, 30 and 45 credit projects.

We provide a professional course that demands students to demonstrate professional attributes in their preparation, attendance and participation in class. It is a rigorous professional post graduate course and therefore the teaching and support needs to be of a high quality to ensure that the students can perform to their fullest potential. The Bar Standards Board requires high standards of the students and of the teaching staff providing the course

2. Educational Aims (c. 4-6 aims)
