**Programme code:** N14F12-JAN-FT-NE-N14512

## Section 2: Programme Overview, Aims and Learning Outcomes

### Part A: Programme Overview, Aims and Learning Outcomes

**Overview:** This one-year, full-time MSc in International Management will provide a range of expertise, knowledge and skills required to perform a managerial role in an international context.

**Educational Aims:** The programme focuses on integration of theory and practice to develop students' knowledge base, behaviours and skills both academically and professionally. A combination of pedagogical approaches including research and practice led teaching ensures that students on the programme learn and practice new knowledge and integrate their experiences to resolve complex managerial problems, with a view to creating a positive impact in the globalised world.

#### **Programme Learning Outcomes:**

On successful completion of this programme graduates will achieve the following learning outcomes.

#### **Knowledge and Understanding**

- A1. Markets – the development and operation of markets for resources, goods and services
- A2. Customers – customer expectations, service and orientation
- A3. People – the management and development of people within organisations
- A4. Operations – the management of financial, information and human resources, and operations and their impact upon organisations
- A5. Organisations –the complex relationships between people and organisations, exploration of organisational culture, strategic human resource management
- A6. Digital Technologies/Information Systems – comprehension and use of relevant digital technologies/information systems for application in business and management

- A7. Global business policy and strategy – the development of appropriate policies and strategies within a changing environment to meet stakeholder interests, deep understanding of the national and cultural contexts in which businesses operate and plan strategies accordingly
- A8. Ethics and Sustainability – recognition of ethical dilemmas, ethical values, corporate social responsibility and sustainability issues
- A9. Globalisation, diversity, intercultural contexts – the development of intercultural competence and global citizenship, appreciation of the implications of globalisation for cultural diversity
- A10. Pervasive issues – these would include business innovation, creativity, leadership, enterprise development, project management, knowledge management and risk management

### **Intellectual Skills**

- B1. Being able to think critically and be creative: manage the creative processes in self and others; organise thoughts, analyse, synthesise, and critically appraise. This includes the capability to identify assumptions, evaluate statements in terms of evidence, detect false logic or reasoning, identify implicit values, define terms adequately and generalise appropriately
- B2. Being able to solve complex problems and make decisions; establish criteria, using appropriate decision-making techniques including identifying, formulating and solving business problems; and the ability to create, identify and evaluate options; the ability to implement and review decisions
- B3. Numeracy and quantitative skills including the development and use of relevant business models

### **Subject/Professional Practice Skills**

- C1. The ability to apply cross-disciplinary knowledge in international management and operate as a professional
- C2. The ability to conduct research into business and management issues either individually or as part of a team through research design, data collection, analysis, synthesis and reporting
- C3. Using information and knowledge effectively: scanning and organising data, synthesising and analysing in order to abstract meaning from information and effective use of ICT

- C4. Effective two-way communication: listening, effective oral and written communication of complex ideas and arguments, using a range of media, including the preparation of business reports
- C5. Effective performance within team environments and the ability to recognise and utilise individuals' contributions in group processes and to negotiate and persuade or influence others; team selection, delegation, development and management
- C6. Leadership and performance management: selecting appropriate leadership style for different situations; setting targets, motivating, monitoring performance, coaching and mentoring
- C7. Ability to recognise and address ethical dilemmas and corporate social responsibility issues, applying ethical and organisational values to situations and choices

### **Transferable Skills and other attributes**

- D1. High personal effectiveness, organise thoughts, analyse, synthesise and critically appraise
- D2. Critical self-awareness, self reflection and self-management
- D3. Time management
- D4. Sensitivity to diversity in people and different situations
- D5. Conflict resolution, displaying commercial acumen, the ability to continue to learn through reflection on practice and experience
- D6. Ability to continue to learn through reflection on practice and experience
- D7. Encourage effective performance within a multi-national / multi-cultural team environment and recognise and utilise individuals' contributions in group processes
- D8. Develop graduate skill attributes for employment and career progression
