Apprenticeship: Not applicable

Mode of delivery: Full-time

Entry requirements: For the current entry requirements see the UWE public website

For implementation from: 01 September 2018

Programme code: N30G13-SEP-FT-FR-N30C

Section 2: Programme Overview, Aims and Learning Outcomes

Part A: Programme Overview, Aims and Learning Outcomes

Overview: The BA (Honours) Banking and Finance is aimed at students who wish to work in finance. The programme is an ideal launch pad for a career in retail and corporate banking, insurance, wealth management, investment analysis, financial planning and analysis, accountancy, and advisory roles in national and international financial institutions.

Educational Aims: The programme is designed so students can acquire specialist knowledge, technical skills and intellectual attributes that are necessary and expected of a contemporary banking and finance professional. The programme offers an excellent opportunity to acquire in-depth subject-specific knowledge, and to develop analytical and critical thinking skills to solve a range of problems creatively. For those interested in pursuing further study in this area, the programme also helps to foster strong quantitative and qualitative research skills to support postgraduate study.

The philosophy of the programme is underpinned by a commitment to developing students as independent autonomous learners who are: informed about the intricacies of financial services provision and the interdependence between the financial system and the real economy; critical, technically competent, and analytically minded; confident but at the same time aware of the limitations of their analysis; problem-solvers, good communicators and team players; co-producers of knowledge and self-reliant researchers; and, most importantly, aware of the sophistication of globally interconnected national financial systems and the role ethics and regulation play in ensuring their stability and sustainability.

By their final year, students will be equipped by their first two years of study (which may be further enhanced by the opportunity to complete a work placement) to undertake both integrative and specialist subjects, and to complete an independent

research-based piece of work of their choosing within the field of Banking and Finance. Further, students will be able to apply their newly acquired knowledge to new and unfamiliar contexts and to conduct independent research in the area of banking and finance using alternative research methodologies.

Programme Learning Outcomes:

Knowledge and Understanding

- A1. Economic concepts, theory and modelling
- A2. Financial Intermediation and the structure of the financial sector in a developed economy
- A3. The role of the financial sector in promoting growth and investment in a developed economy
- A4. Quantitative and qualitative research methods and computing techniques

UMADKB-15-3	Islamic Banking and Finance 2022-23	15
UMAD5R-15-3	Personal Financial Planning 2022-23	15
UMCDKM-15-3	Work Integrated Learning 2022-23	15

Part C: Higher Education Achievement Record (HEAR) Synopsis

The programme prepares students for successful careers in the finance industry. Cutting-edge teaching from our research-active experts and practical training modules using the industry standard financial trading room ensure that the students are up-to-date and well-connected with industry. Engagement with a real world applied context is key to success and underpinned with social responsibility and ethical standards which are embedded in core studies. Graduates are able to demonstrate excellent technical competence, apply their knowledge to new and

unfamiliar contexts and conduct independent research in resolving challenging business and financial problems.

Part D: External Reference Points and Benchmarks

QAA subject benchmark statements

Banking and Finance

The learning outcomes of the programme map against both the QAA subject benchmark statement for General Business and Management and the following University and Faculty strategies and policies:

University strategies and policies:

University's 2020 Strategy.

UWE Charter.

Faculty strategies and policies:

Blended Learning Framework.

Curriculum Principles.

Employability Strategy.

Faculty of Business and Law LTA Strategy.

Staff research projects:

Where ever possible staff are encouraged to utilize their research – and that of colleagues – to inform their teaching, both in terms of content and pedagogic approach.

Employer interaction and feedback:

Employers and alumni are regularly consulted to ensure the currency and relevance of the programme.

The course is underpinned by cutting edge research which is incorporated into the teaching. External speakers, including industry employers, are regularly involved in guest lectures and are consulted on programme development to maintain currency and relevance. Students provide mid-term and end of module feedback which is

incorporated into module actions and development. Students also provide feedback via Student-Staff Forums and Programme Management Committees. The feedback of External Examiners is also taken into account and is key to ensuring a competitive and appropriate offering in the broader academic context. All modules within the programme are required to produce action focused annual reports to constantly review and enhance teaching and learning quality within the programme.

Part E: Regulations

Approved to University Regulations and Procedures
