Section 2: Programme Overview, Aims and Learning Outcomes

Part A: Programme Overview, Aims and Learning Outcomes

Overview: The BSc (Honours) Banking and Finance is aimed at students who wish to work in finance. The programme is an ideal launch pad for a career in retail and corporate banking, insurance, wealth management, investment analysis, financial planning and analysis, accountancy, and advisory roles in national and international financial institutions.

Educational Aims: The programme is designed so students can acquire specialist knowledge, technical skills and intellectual attributes that are necessary and expected of a contemporary banking and finance professional. The programme offers an excellent opportunity to acquire in-depth subject-specific knowledge, and to develop analytical and critical thinking skills to solve a range of problems creatively. For those interested in pursuing further study in this area, the programme also helps to foster strong quantitative and qualitative research skills to support postgraduate study.

The philosophy of the programme is underpinned by a commitment to developing students as independent autonomous learners who are: informed about the intricacies of financial services provision and the interdependence between the financial system and the real economy; critical, technically competent, and analytically minded; confident but at the same time aware of the limitations of their analysis; problem-solvers, good communicators and team players; co-producers of knowledge and self-reliant researchers; and, most importantly, aware of the sophistication of globally interconnected national financial systems and the role ethics and regulation play in ensuring their stability and sustainability.

By their final year, students will be equipped by their first two years of study (which may be further enhanced by the opportunity to complete a work placement) to undertake both integrative and specialist subjects, and to complete an independent

research-based piece of work of their choosing within the field of Banking and Finance. Further, students will be able to apply their newly acquired knowledge to new and unfamiliar contexts and to conduct independent research in the area of banking and finance using alternative research methodologies.

Programme Learning Outcomes:

On successful completion of this programme graduates will achieve the following learning outcomes.

Programme Learning Outcomes

- PO1. Compare, contrast, and assess the theories, evidence, procedures, and practices required for the effective governance and risk management of financial institutions incorporating multiple economics and financial approaches.
- PO2. Critically review the complexities of the globally integrated financial systems and financial structures of different countries.
- PO3. Apply critical thinking skills to develop informed arguments and propose evidence-based solutions in defined contexts.
- PO4. Identify and refine the scope of research and solve problems using appropriate methods, methodologies, techniques, and tools.
- PO5. Plan, conduct and communicate independent research from a small project to diverse audiences.
- PO6. Work effectively as a member of a team and present in a professional manner.
- PO7. Develop personal resilience and reflexive self-awareness skills to achieve career goals.
- PO8. Reflect critically on the ethical dilemmas and challenges in the practice of contemporary finance, including the issues of social injustice and the transition to a sustainable economic future for all.

Year 4

Full time students must take 120 credits from the modules in Year 4.

Sandwich students must take 15 credits from the modules in Year 4.

Students on the sandwich route (SW) must choose and pass one of the following options both of which aim to enable students to contextualise their academic learning in an applied business and/or cultural context:

Work Placement: a significant period of paid employment or self-employment normally in the field relevant to the specialism of the degree.

During this time students must complete the 15 credit Level 3 module, Placement Learning UMCDN5-15-3. This module assesses the student's personal development, from the experience of placement and their ability to identify issues relevant to their Placement's organisational context and to then frame, scale and position a critical work-based enquiry relevant to the specialism of the degree.

Study Year Abroad, which consists of two semesters of study at a partner institution abroad.

During this time students must complete the 15 credit Level 3 module, Learning and Development on Study Year Abroad (UMCD9Y-15-3). This module assesses the student's personal development from the experience of SYA and their ability to evidence cross-cultural awareness and analysis of the country in which they have been studying. In addition, whilst at the partner institution students must have studied and attempted assessments in modules totalling 60 ECTS, of which 50-55 ECTS should be in modules related to their programme of study at UWE with a further 5-10 ECTS in the language of the host country. If the advent of failing any modules students must be able to demonstrate engagement i.e. that they have attended classes and sat the exams.

To be eligible for either Placement or SYA students would normally be expected to have passed a minimum of 330 credits.
