

## SECTION 1: KEY PROGRAMME DETAILS

PART A: PROGRAMME INFORMATION	
Highest Award	MSc Financial Technology
Interim Award	PGDip Financial Technology
Interim Award	PGCert Financial Technology
Awarding Institution	UWE Bristol
Teaching Institution	UWE Bristol
Delivery Location	Frenchay Campus
Study Abroad / Exchange / Credit Recognition	Placement X Sandwich Year X Credit Recognition X Year Abroad X
Faculty Responsible For Programme	Faculty of Business & Law
Department Responsible For Programme	FBL Dept of Accounting Economics & Finance
Apprenticeships	
Mode of Delivery	Full-time
<b>ENTRY REQUIREMENTS</b>	UCAS Tariff Points:  For the current entry requirements see the UWE public website.
<b>For Implementation From</b>	1 Sep 2019
<b>ISIS Code/s</b>	Programme Code N3I212-SEP-FT-FR-N3I212  Other codes: JACS Finance not elsewhere classified HECoS 100000: Undefined UCAS SLC

**SECTION 2: PROGRAMME OVERVIEW, AIMS and LEARNING OUTCOMES****PART A: PROGRAMME OVERVIEW, AIMS and LEARNING OUTCOMES****1. (Programme) Overview (c. 400 words)**

Financial Technology is at the core of disruptive transformation in financial and professional services industries with applications in, and implications for, business operations and effectiveness across the whole global economy. Bristol is a burgeoning fintech hub with global reach and increasing numbers of new employers and entrepreneurs, drawn to the skilled talent pool and favourable business environment in the region. There is a rapidly growing demand for graduates who combine technical data and systems understanding with business acumen and knowledge of the industries in which the technologies have maximum impact and application. This programme aims to meet this demand.

The programme aims to develop students to address the fast developing and pervasive impact of disruptive technologies in the financial and professional services industries, providing them with a distinctive and sought after portfolio of knowledge and skills. Students will be able to synthesise their learning in finance and technology to identify and evaluate opportunities and future trends in fintech. The programme draws on the expertise of academics and practitioners in data and computer science, in finance, regulation (legal / reg tech), enterprise and business. Partnerships with the Fintech industry are embedded in the teaching and assessment strategies to ensure cutting edge currency in applied knowledge and skills. Close collaboration with thought leaders and industry partners will create opportunities for students to develop their business networks and identify career opportunities as an integral part of their programme.

**2. Educational Aims (c. 4-6 aims)**

The Programme aims to develop graduates with both data science and financial knowledge and technical and personal skills appropriate for future roles in the fintech business environment. Students will be enterprising future thinkers, creative problem solvers and networked team players with a deep understanding of the fintech environment and the opportunities within it, equipped to succeed in a disruptive and transformational business landscape.

The aims of the programme are to develop students who:

Demonstrate deep applied knowledge and skills in data science and finance for a successful career in Financial Technology

Synthesise knowledge and skills in finance and technology to address complex problems and propose creative solutions in Fintech

Demonstrate advanced business communication, collaborative teamwork and leadership skills

Effectively manage their personal and professional development

Critically evaluate legal and ethical boundaries in fintech innovation and their role as socially responsible global citizens

**PART A: PROGRAMME OVERVIEW, AIMS and LEARNING OUTCOMES****3. Programme and Stage Learning Outcomes (c. 6-8 outcomes)****Programme (Learning) Outcomes (POs)****Programme Learning Outcomes**

PO1	Apply skills and knowledge in data science and finance to design, create, use and adapt FinTech solutions across a variety of contexts
PO2	Synthesise knowledge and skills in finance and technology to identify and evaluate opportunities and future trends in fintech
PO3	Apply a deep strategic understanding of the theoretical and practical underpinnings of existing and emerging trends in Fintech
PO4	Undertake in depth research through design, data collection, analysis and synthesis to address complex problems in fintech innovation
PO5	Work effectively in teams and collaborate in interdisciplinary projects
PO6	Communicate complex material effectively and efficiently, customised to the needs and level of the intended audience
PO7	Demonstrate reflexivity and the ability to identify and develop a skillset appropriate for a chosen career in FinTech
PO8	Critically evaluate legal, technical and ethical challenges and reflect on the importance of ethical decision making in the Fintech business environment

**PART B: Programme Structure****1. Structure****Year 1****Year 1 Compulsory Modules**
