Section 2: Programme Overview, Aims and Learning Outcomes

Part A: Programme Overview, Aims and Learning Outcomes

Overview: This programme prepares students for careers in the rapid-paced and constantly changing global financial industries. Career paths could include professional accounting, financial management roles in corporations and SMEs, portfolio management, wealth management, and financial startups using disruptive technologies. Through close engagement with employers, entrepreneurs and professional bodies, the programme encourages students to explore the many possible applications of the accounting and finance skills and knowledge acquired. The programme integrates activities in our large Bloomberg Trading Suite, giving access to real time trading information and the industry standard database for financial analysis and research. Innovation and the impact of digital technologies are examined in the context of both current and future financial development, and issues of sustainability, ethics and governance are embedded in learning through real world case study approaches. Students have the opportunity to act as business advisers through our Business Clinics, providing accounting and tax information to support new entrepreneurs, small companies and charities. The programme embeds industry guest lectures and professional body engagement at all levels of study, offering opportunities to network with potential future employers. The programme focuses on developing students as strategic decision makers, able to synthesise technical and theoretical knowledge and apply their learning to drive business performance, resolve financial problems and work successfully in a collaborative and multicultural business environment.

Work Placement: a significant period of paid employment or self-employment normally in the field relevant to the specialism of the degree.

During this time students must complete and pass the 15 credit level 6 module, Placement Learning UMCDN5-15-3. This module assesses the student's personal development, from the experience of placement and their ability to identify issues relevant to their Placement's organisational context, and to then frame, scale and position a critical work-based enquiry relevant to the specialism of the degree.

Study Year Abroad, which consists of two semesters of study at a partner institution abroad.

During this time students must complete and pass the 15 credit level 6 module, Learning & Development on Study Year Abroad (UMCD9Y-15-3). This module assesses the student's personal development from the experience of SYA and their ability to evidence cross-cultural awareness and analysis of the country in which they have been studying.

In addition, whilst at the partner institution students must have studied and attempted assessments in modules totalling 60 ECTS, of which 50-55 ECTS should be in modules related to their programme of study at UWE with a further 5-10 ECTS in the language of the host country. If the advent of failing any modules students must be able to demonstrate engagement i.e. that they have attended classes and sat the exams
