## **Section 2: Programme Overview, Aims and Learning Outcomes**

### **Part A: Programme Overview, Aims and Learning Outcomes**

**Overview:** This programme prepares students for careers in the rapid-paced and constantly changing global financial industries. Career paths could include professional accounting, financial management roles in corporations and SMEs, portfolio management, wealth management, and financial startups using disruptive technologies. Through close engagement with employers, entrepreneurs and professional bodies, the programme encourages students to explore the many possible applications of the accounting and finance skills and knowledge acquired. The programme integrates activities in our large Bloomberg Trading Suite, giving access to real time trading information and the industry standard database for financial analysis and research. Innovation and the impact of digital technologies are examined in the context of both current and future financial development, and issues of sustainability, ethics and governance are embedded in learning through real world case study approaches. Students have the opportunity to act as business advisers through our Business Clinics, providing accounting and tax information to support new entrepreneurs, small companies and charities. The programme embeds industry guest lectures and professional body engagement at all levels of study, offering opportunities to network with potential future employers. The programme focuses on developing students as strategic decision makers, able to synthesise technical and theoretical knowledge and apply their learning to drive business performance, resolve financial problems and work successfully in a collaborative and multicultural business environment.

**Student support:** Student support for all issues relating to the content, delivery and assessment of modules is provided by Module Leaders, and for more general academic and professional concerns, by Programme Managers.

At each level students are supported by Academic Personal Tutors, an academic member of staff who will have access to information on the performance and profile of the student, allowing them to effectively support students' personal and academic development. This is an academic role and where students have problems of a personal nature they are to be referred as appropriate to UWE Student Services Student Advisors and to UWE Careers regarding employability issues. In addition, students can seek support from the Faculty's Academic Success Centre, an initiative intended to support the learning of all students within the faculty by offering one-to-one appointments to discuss individual learning issues and workshops covering a range of topics relevant to learning.

These Student Services Student Advisors provide timely, accurate and confidential advice where necessary on all aspects of the provision, for example coursework and examination arrangements, extenuating circumstances procedures, progression counselling, as well as personal issues such as problems with studying or meeting deadlines, financial matters, ill health and so on, including when relevant how to access the wider support provided by the University. This service is supported by extensive online resources.

The UWE Careers Placement Support Team provides extensive support for students in preparation for their placement period and acts as a recruitment service for employers. Students intending to go on study year abroad are equally well supported by staff from the international development/ERASMUS and collaborative provision teams. All students will be prepared for living, working and studying overseas during level two.

Students and graduates are also supported by UWE Careers who help them to access skills, experience and knowledge to improve their employability prospects. The service provides high quality and professional advice and guidance focusing on enabling them to take control of and responsibility for their own career planning and progression/development. They can access support around finding vacancies for work experience, volunteering, part time work and internships, as well as events and workshops. UWE Careers provides recruiter facing services including advertising graduate job vacancies, work experience and volunteering opportunities, and

running both undergraduate and graduate internship schemes. There are also part time jobs advertised by the Student Union Jobshop. There is specialist support for international students including specific resources developed for a range of countries where students are recruited from. Students are introduced to the service during the induction to the course and are encouraged to use the service all through their undergraduate programme and for three years after graduation.

All students take part in an Induction programme at the start of their studies. Separate induction events are arranged for students who arrive as direct entrants at levels 2 and 3.

All new students are provided with a short Student Handbook to help them through their first weeks at university and to act a guide to the complex information environment in which they now find themselves. Together with the student portal myUWE, the university's Essential Student Information web pages provide support and the more detailed and up to date information to students.

An important part of the programme is the involvement of students. Two or three student representatives are elected to serve on the Student Representatives & Staff Forum meetings that are held each term to discuss issues raised by students in relation to their experience of studying at UWE and on the programme. The meetings are arranged by cluster group and are chaired by programme managers. The aim of the meetings is to discuss issues raised by students in an open and friendly atmosphere so that students feel able to contribute openly and honestly about their experiences. Any issues raised are taken forward by programme managers. Where appropriate they may be discussed at Departmental Committees or Faculty Academic Standards and Quality Committee.

Support to students with disability is coordinated centrally through Disability Services. This acts as a holistic service for disabled students and applicants to the University but also supports the academic and administrative staff who work with disabled students.

In addition to the above The University's Student Services offers a range of services

to support students during their time at university and beyond:

- University Health Centre and general advice on Staying Healthy;
- Careers and employability, advice on choosing a career, and finding student and graduate vacancies;
- UWE volunteering, opportunities for students to get involved in the local community through the Community Volunteer Programme;
- Student Advisors and Counselling for anything from exam stress to homesickness and depression;
- The Living Centre, for support with faith and spiritual matters; - Global student support, to help international students to make the most of living and studying in the UK;
- Managing disability and dyslexia, to get help with all disability related support needs;
- Money and Visas, for financial check-ups, or help with UK visas.

Placement or Study Year Abroad.

For the award of the Sandwich title (SW) students must choose one of the following options both of which aim to enable students to contextualise their academic learning in an applied business and/or cultural context:

**Work Placement:** a significant period of paid employment or self-employment normally in the field relevant to the specialism of the degree.

During this time students must complete and pass the 15 credit level 6 module, Placement Learning UMCDN5-15-3. This module assesses the student's personal development, from the experience of placement and their ability to identify issues relevant to their Placement's organisational context, and to then frame, scale and position a critical work-based enquiry relevant to the specialism of the degree.

**Study Year Abroad**, which consists of two semesters of study at a partner institution abroad.

During this time students must complete and pass the 15 credit level 6 module, Learning & Development on Study Year Abroad (UMCD9Y-15-3). This module assesses the student's personal development from the experience of SYA and their ability to evidence cross-cultural awareness and analysis of the country in which they have been studying.

In addition, whilst at the partner institution students must have studied and attempted assessments in modules totalling 60 ECTS, of which 50-55 ECTS should be in modules related to their programme of study at UWE with a further 5-10 ECTS in the language of the host country. If the advent of failing any modules students must be able to demonstrate engagement i.e. that they have attended classes and sat the exams
