SECTION 2: PROGRAMME OVERVIEW, AIMS and LEARNING OUTCOMES**PART A: PROGRAMME OVERVIEW, AIMS and LEARNING OUTCOMES****1. (Programme) Overview (c. 400 words)**

The BA (Hons) Business Management with Law offers students a current and integrated business education covering the main disciplines and operational areas of business, as well as the development of knowledge, skills and attributes relevant to Law.

2. Educational Aims (c. 4-6 aims)

The curriculum aims to challenge students in their ways of thinking, behaving, learning, and issues of ethics and ethical decision making, sustainability and global citizenship are embedded throughout. The programme actively seeks input from the external environment and student learning is grounded in the external context wherever appropriate through, e.g. external speakers; assessments that provide students with opportunities to test out concepts in practice and reflections on own experience of organisations. In addition, all students are encouraged by the curriculum into actively pursuing work experience of some sort, i.e. via placement, internship, or volunteering. Student achievement is supported by a clear personal development strand of transferable skills and 'brain habits' over all three levels that facilitates the transition into Higher Education and which underpins employability and lifelong learning.

The programme aims to enable students to:

Acquire a critical understanding of organisations, their management and the changing external environment in which they operate;

Be equipped with the employability attributes and skills necessary for a career in a wide variety of business, management or Law related roles;

Develop an analytical and enquiring approach in the analysis of business problems so that considered and appropriate conclusions are drawn – which can be communicated effectively in a variety of forms;

Have an informed understanding of critical contemporary business issues and theoretical debates, including ethics and ethical decision-making, sustainability and global citizenship;

Work with academic theory in practice;

Develop a strong sense of self and the life-long learning skills to make an ongoing contribution to society at large;

Critically analyse and evaluate legal principles in a business context;

Evaluate the interplay between business and law;

Analyse and solve legal and business problems.

The programme also aims to support the UWE Bristol widening participation strategy by enabling students to undertake a foundation year before progressing to year one of the programme.
