Part 2: Description

Aims of the undergraduate modular scheme:

- to provide an opportunity to develop a creative practice within a chosen field of study;
- to provide an experience of higher education in art, media and design that offers student's choice and independence in determining their own abilities and ambitions within a subject discipline;
- to equip students with the intellectual, practical, critical and creative skills necessary for them to locate themselves and their practice within professional, social, historical and cultural contexts;
- to give students the confidence to develop informed independent judgements and critical and intellectual rigour;
- to ensure that the development of key/transferable skills is an integrated part of the curriculum;
- to equip students with the necessary understanding of research techniques and appropriate methodologies;
- to sustain an environment in which individual students may realise their full potential.

Educational Aims:

The programme aims to enable students to:

- Explore the breath and depth of contemporary graphic design practice within the Creative Industries
- Develop sustainable personal and professional practice through the application of a design methodology and the implementation of a range of creative, critical and technical skills
- Understand the function of design and the role of the graphic designer
- Locate their own practice through the exploration and the application of their ideas across a range of graphic design contexts and disciplines
- Develop the intellectual, critical, technical and key/transferable skills (necessary) to work in either a professional environment or to undertake further study.
- To develop an knowledge and understanding of the professional practice within the discipline of graphic design

Foundation year is a period of study that enables students to be inquisitive and experimental, reflective and evaluative, in which fertilisation between disciplines is encouraged. Students will work together on sequential practical, studio based, modules to develop the divergent thinking necessary for study in Art & Design. As the year progresses students will increasingly focus on their chosen pathway. Their academic thinking and writing skills will be developed through a contextual study component that runs alongside these modules that is linked to the students' emerging creative identities.

Foundation year Aims:

The Foundation year will enable the student to:

1. Develop a contextual awareness of a range of approaches to making and thinking in Art & Design;
2. Develop the skills necessary to progress their work and their learning in Art & Design;
3. Make safe and appropriate use of methods, materials and tools to create works in response to ideas;
4. Solve creative problems through the application of theoretical and technical understanding;
5. Develop creative solutions through visual and textual research and analysis;

Part 2: Description

6. Evaluate the successes of their progress and outcomes;
7. Effectively present themselves and their work.

Foundation year Learning outcomes:**A Knowledge and understanding of:**

Some key theories, issues and debates associated with Art & Design Practice;
 Range of contexts for the production and consumption of Art & Design;
 Basic principles of Art & Design and how these have developed;
 The main methods of enquiry appropriate to Art & Design and their pathway or destination programme;
 Identification of personal creative influences.

B Intellectual Skills:

Development of evaluative skills in relation to Art & Design, and to approaches to solving problems within their chosen discipline;
 Effective use of research to develop ideas and lines of argument and to engage in discussion and debate.

C Subject/Professional/Practical Skills:

Acquire competences that will enable them to progress onto their destination programme;
 Use a range of techniques to produce an imaginative and creative body of work;
 Awareness of health, safety and environmental issues relevant to materials and processes used.

D Transferable skills and other attributes:

Apply research skills and strategies to develop individual interests and support personal views;
 Write, document, and communicate ideas;
 Be self-motivated;
 Exhibit time-management.

Programme requirements for the purposes of the Higher Education Achievement Record (HEAR)

This course enables students to explore the changing concept of graphic design and the role of the graphic designer in society and the professional world. The structure is designed to offer a pattern of learning that establishes basic principles and issues at level 1 before options for specialisation are introduced at levels 2 and 3. Students develop a good understanding of a range of methods for developing creative ideas before embarking upon further study that involves working within one of the specialised disciplines. Additionally work experience and professional practice underpin learning outcomes and assessment criteria throughout the course

GRADUATION

Part 5: Entry Requirements

The University's Standard Entry Requirements apply with the following additions/exceptions:

Applicants should normally have completed one of the following:

- A Foundation course of at least one year's duration.
- A BTEC certificate or diploma in an appropriate art and design subject or other evidence of potential to study at degree level.
- An Access to HE programme in Art and Design or a related subject

Level Three entry – suitable qualifications will include Foundation Degree, Diploma in Higher Education or HND (or equivalent) in an appropriate/related subject discipline).

Tariff points as appropriate for the year of entry - up to date requirements are available through the [courses database](#).

The programme structure, curriculum content, professional skills and industry engagements have been successfully scrutinised by professionally engaged external examiners and HE Teaching, Learning and Assessment in Creative Practices specialists. This scrutiny has been enhanced by the regular professional engagement of industry practitioners, the success of the course in national and international open professional awards and the strong track record of our graduating students and alumni in moving into professional practice, employment and further study. The course continually reassesses its professional currency via outward engagement, live commissions and industry events.
