Section 2: Programme Overview, Aims and Learning Outcomes

Part A: Programme Overview, Aims and Learning Outcomes

Overview: UWE's Education provision is founded on a moral purpose to make a difference through deep partnership, by contributing to improvement in a range of educational settings and contexts whilst enhancing approaches to education professionals' continuing development of effective practice.

Key areas of study include prevalent concepts and theoretical models in education and their relationship to practice; a focus on the development of reflective skills and a critical and enquiring approach to theory and practice; the development of leadership skills; and how to carry out a robust and ethical research project.

Key concepts that lie at the heart of the programme design include critical analysis of educational theory and practice, and an awareness of what impacts the success of learners. Central to this is the development of students' own reflective and reflexive skills. In developing these skills and ways of approaching their practice they will become more aware of their own role and impact within their context, or develop the skills to project forward to potential working contexts.

The modular programme provides the opportunity to accrue credits towards the nationally recognised awards of Postgraduate Certificate, Postgraduate Diploma and Masters degree.

Educational Aims: The MA Education has been developed in order to:

develop graduates who can reflect on, refine and articulate their values, ethics and principles leading to the continual development of their professional selves;

develop understanding of the roles of educators in learning, and what impacts the success of learners;

provide opportunities to explore education policy and theory in a range of contexts and the implications of these on practice;

develop a range of leadership skills, including influencing through research and knowledge exchange;

develop the skills to critically appraise and conduct research to support continuous development in dynamic educational and associated environments.

Programme Learning Outcomes:

Programme Learning Outcomes

- PO1. Critically evaluate the ethical implications of practice and research
- PO2. Design and undertake an educational research project drawing on relevant theory and building on an evidence base
- PO3. Critically analyse educational practices and outcomes for learners within their contexts
- PO4. Identify leadership skills within their context and plan for their continued development appropriately
- PO5. Review, appraise and critically apply relevant theories as they apply to education
- PO6. Realise a personal educational ethos and analyse this in relation to professional approaches and contexts

Part C: Higher Education Achievement Record (HEAR) Synopsis

The programme is designed to enable practising teachers/lecturers, leaders in education and education professionals to gain accreditation for practice based research and development activities that will form an important part of their continuing professional development. The programme provides progression for qualified teachers/lecturers and education professionals working in all settings/phases of education, from their initial training, through their early career development and as more experienced professionals, teachers/lecturers, middle and senior leaders.

Part D: External Reference Points and Benchmarks

The redevelopment of this programme is informed by the QAA (2007) benchmarks for Education Studies as demonstrated in the programme learning outcomes.

The requirements and considerations of the following external bodies have also been taken into account:

Ofsted

NCTL National Standards

The SEEC level descriptors (2016) for HE Level M have been used to inform the programme and module level learning outcomes.

Staff teaching on the programme are engaged in research and knowledge exchange which informs the programme content and delivery.

UWE's strong partnership culture underpins all ITE programmes, for which the MA Education programme provides a progression route.

Part E: Regulations

Approved to University Regulations and Procedures.
